

## EXERCISE 9

*Put the description of two maps of a city in 2007 and 2017 in the correct order.*

Firstly, there are more types of transport than in the past. In 2007, New City had just one train station in the west of the city. The city now has an airport in the north east and a bus station in the south west. In addition, people can rent bicycles in several areas of the city centre.

It is an attractive city with a river and several green areas. The main centre is opposite a large park. The two biggest changes to New City that we can see are the different types of public transport and buildings.

Secondly, the buildings in New City are very different today. In 2007, most people lived in houses. Now, there are new apartment buildings. There is a bigger, more modern hospital, and there are many more shops and restaurants, including a large new shopping centre in the east of the city.

The two maps show some of the main changes to a city between 2007 and 2017. The name of the city is New City.
