4th GRADE TEST UNIT I

I. Read about apples and complete the schema.

APPLES

Apples are fruits that grow on apple trees. Each apple has seeds. There are hundreds of different kinds of apples. Each apple has a different texture and taste.

Apples begin as seeds. Each year an apple tree grows more and more branches. Apple trees do not begin making flowers or apples until they are about eight years old.

Apple trees can live 100 years or more.

People all over the world eat apples. They are a healthy snack. Apples' contain healthy vitamins and fiber. They can be made into sauces, pies, juices, and ciders.
