

UNIT 5: WORKING OFFSHORE

LESSON 3

HEALTH AND SAFETY: In the sick bay

ACTIVITY 1: Read. What do medics do? Make a list. (*hacer una lista de trabajos que hacen los médicos en la plataforma. Por lo tanto son verbos, acciones, las que buscamos en el texto. Utilicen diccionario si es necesario.*)

Every rig has a doctor or a medic. Their job is to look after any medical problems on the rig. Normally they treat patients in the sick bay. Sometimes they send patients to hospital by helicopter. Medical staff can have other jobs, too. They check water supplies. They inspect food. They order medical supplies. They also train workers in first aid.

Medics look after medical problems, treat patients in the sick bay, _____

ACTIVITY 2: Listen to the conversations. What three questions does the medic ask? Choose three. Audio N° 44.

What's the problem?
Do you have any problem?
What's the matter?
What's up?
What's going on?
What happened?
Do you feel bad?

ACTIVITY 3: Listen again. Write down the six medical problems you hear. Use the words in the box to help you. Audio 44.
