

How/why would you use Internet when buying each of these products or services? You can choose from options below or use ideas of your own.

- to check prices
- to find the nearest retailer / dealer
- to customise purchase
- to compare different products
- to check availability
- to track delivery
- to make a reservation
- to make the final purchase

You will hear part of a radio programme in which five people talk about why they used Internet to buy things.

Bruce

Tanya

Paddy

Petra

Salim

What product or service were these people buying and how they used Internet?
