| 7. A. designer | B. mechanic | C. engineer | D. musician |
| 8. A. population | B. organization | C. occupation | D. competition |

III/ Read the following passage then answer the questions.

The environment is everything around us, both natural and made by man. A major problem in the world today is the destruction of the natural environment. This is complicated problem. We burned fuel, and this causes air pollution. We throw away plastic bags, containing toys and other objects. These stay in the environment, they are not like paper or wood that slowly disappear. We have made thousands of new chemicals. Factories that make or use chemicals always have chemical wastes. These are often poisonous, and they also stay in the environment. In 1945, several countries tested nuclear bombs in the air and underground. The explosion in the air causes nuclear explosion. The explosion causes cancer and kills animals and people. Nuclear power plants that make electricity also produce dangerous wastes and have accidents that can be very disastrous.

9. What is the passage about?

- A. The problems in the world today B. The destruction of the natural environment nowadays
C. Nuclear power is dangerous D. The environment is around us
