How to Plant Cassava Step-by-Step

Standard One

Agriculture Science

10th November, 2022

LIVEWORKSHEETS

STEP 1

Get some cassava sticks about

100 centimeters long.

LIVEWORKSHEETS

STEP 2

Measure the cassava sticks

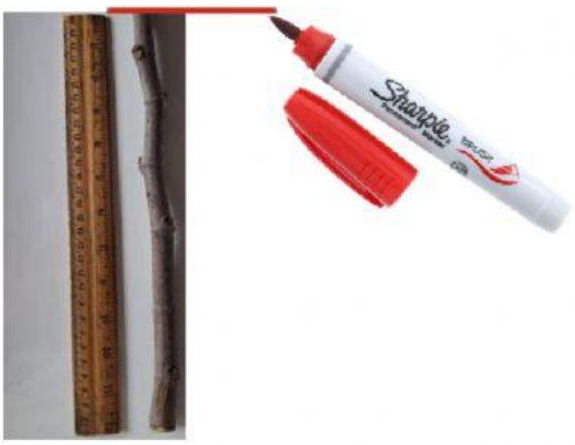

30 centimeters long.

LIVEWORKSHEETS

STEP 3

Put a marking at the 30 centimeters mark and do so for every other 30 centimeters until there is no more length to measure.

LIVEWORKSHEETS

STEP 4

Let an adult cut the cassava sticks into smaller sticks at the 30 centimeter marks and then let them give it to you.

LIVEWORKSHEETS

STEP 5

Stick one end of the cassava stick into the dirt, up to 20 centimeters down into the ground.

LIVEWORKSHEETS

STEP 6

Scoop up some dirt around the cassava stick

to make it stand firm and stay upright.

This is called molding.

LIVEWORKSHEETS

STEP 7

Next, stick the other cassava sticks

33.33 centimeters apart along the garden bed.

LIVEWORKSHEETS

STEP 8

Plant until all of the cassava sticks have been placed in a straight line on your garden beds.
