VI/ Read the following passage then answer the questions.

Environment pollution is one of the most serious problems of mankind today. Air, water and soil are necessary to all living things. Man operates machines and vehicles that fill the air with noise. They also dirty the air with gases and smoke. Badly polluted air can cause illness and even death. Man destroys natural beauty by littering garbage on the land and in the water. They poison the water with chemicals and other waste materials. Polluted water kills fish and other marine life. They damage the soil with too many fertilizers and pesticides. Pollution of soil reduces the amount of land that is available for growing food. Environmental pollution also brings ugliness to man's naturally beautiful world. Governments should pass laws that require people and factory owners to stops certain polluting activities.
