Nowadays people are more aware that wildlife all over the world is in danger. Many species of animals are threatened and could easily become extinct if we do not make an effort to protect them. There are many reasons for ***this***. In some cases, animals are hunted for their fur or for other valuable parts of their bodies. Some birds, such as parrots, are caught alive, and sold as pets. For many animals and birds, the problem is that their habitat - the place where they live - is disappearing. More land is used for farms, for houses or industry, and there are fewer open spaces than there once were. Farmers use powerful chemicals to help
