## EASY CHEF FORUM

Isabel

**What do you usually eat? How often do you eat out? What's your favorite recipe? We want to hear from you!**

In my family, we usually have a well-balanced diet. We eat vegetables, fruit, and grains every day. We eat chicken about three times a week, and we eat fish once or twice a week. We hardly ever have beef. We eat it once in a while at restaurants, but we don't eat out very often. We do have some special days, though. Once a month, we eat out with our children at our favorite Chinese restaurant. The dumplings are delicious! And my mom comes over and makes Mexican food twice a month.

**Here's my favorite easy recipe:**

Veggie Pizza

Get some Italian bread. Put vegetables on top. I use peppers, tomatoes, and onions. Then add cheese, and cook it in the microwave for one minute. Delicious!

### Part 6: Read the following text and answer the questions.

#### Days of the week

There are seven **days of the week**, or uniquely named 24-hour periods designed to provide scheduling context and make time more easily measurable. Each of these days is identifiable by specific plans, moods, and tones.

**Monday** is viewed by many to be the "worst" day of the week, as it marks the return to work following the weekend, when most full-time employees are given two days off. Most students attend school in the morning and return home in the afternoon (usually from about eight until three or seven until two), and most workers go to work in the morning and return home in the evening (usually from nine to five or eight to four).

**Tuesday** is the second day of the week, and is in many ways similar to Monday. Not a whole lot changes, schedule-wise, between Tuesday and Monday; most individuals go to school or work and return home to watch television, play video games, make plans with friends, spend time with family, read, or engage in a similar leisure-related activity.

**Wednesday** is the third day of the week, and serves as the "middle" of the work week; some individuals refer to Wednesday as "hump day," as once its workday is complete, employees will have passed the work-week "hump," and will be on the downturn, as only two days on the job will remain in the week.

**Thursday** is the fourth day of the week, and is viewed favorably by many, as it's rather close to the end of the work week.

**Friday** is the fifth day of the week, and marks the end of the workweek and school-week for the vast majority of employees and students. By Friday afternoon/evening, most students/workers cannot wait to leave and go home, as they won't have to report back to school/work until Monday.

**Saturday** is perhaps the most highly regarded day of the week. Because Sunday follows it (and there is presumably no work or school to attend, for most individuals), everyone is free to stay out (or awake) until late at night, having fun with plans or other leisure-related activities. To be sure, Saturday is generally thought of as a day to partake in hobbies that couldn't otherwise be enjoyed during the regular week.

**Sunday** is the final day of the week, and is used by most as a day of rest. Fewer late-night plans are made on Sundays, compared to Saturdays, as most individuals have to wake up for work or school on Monday morning.

26. What is the weekend?

- a. Saturday and Sunday
- b. Wednesday and Friday
- c. Thursday and Sunday
- d. Friday and Saturday

27. Which day of the week is sometimes referred to as "hump day"?

- d. Tuesday

28. Which day of the week is perhaps the most exciting, in terms of plans and activities?

- a. Monday
- b. Saturday
- c. Sunday
- d. Wednesday

29. Which day don't people do late-night plans?

- a. Thursday
- b. Sunday
- c. Friday
- d. Monday

30. According to the reading, why the days of the week are different?

- a. Because their place in the week
- b. Because people preferences
- c. Because each day of the week is identified by specific plans, modes and tones.
