

2nd year Units 4 and 5. PIA Test

Name:

Date:

Reading. TECH TALK

Have you got a smartphone? If so, you're one of over 3.5 billion people around the world who use them. In the USA, a typical teen spends 9 hours a day using screens, and over 7 of those hours on their smartphone. Some teens are on their phones for up to 10 hours!

What do people use most on their phones? Apps. In fact, Americans spend up to 88% of their time on apps – and there are millions to choose from. Google Play has got over 2.8 million apps and Apple has got over 1,960,000.

Think of the **3 Fs** when choosing an app. A great app is:

1 **FAST** Today, we can't wait for a slow app to load – we're too busy!

2 **FRIENDLY** If it's difficult to download or use, it's no good. An app needs to be 'friendly on the eye', so images on the screen are clear and attractive. Lastly, friendly apps are safe to use.

3 **FREE** Look for apps that are free or cheap. Many people can't, or don't want to, pay lots of money. Most people choose ones that don't cost anything.

1) Read the article again and say if these statements are T or F.

- a) Of all technological devices, phones are the most popular ones.
- b) Apple is more popular than Google Play.
- c) People want to pay for attractive apps.
- d) Most apps are not dangerous to use.
- e) People enjoy learning how to use an app, even if it takes time.

2. Writing. Tell us what you can do and can't do with your phone. 3 sentences.

3. Vocabulary. Daily routines. Tell us what you do in the morning, afternoon and evening on weekdays. Write complete sentences and tell us when you do them. There is one example.

In the morning I get up at half past six, After that _____

In the afternoon I _____
