

## REVISION TEST

### Match each description to the right shape

I have 6 faces which are all the same. I have 12 edges. I have 8 vertices.

TRIANGULAR PYRAMID

I have one curved surface and I don't have any edges.

CUBOID

I have 4 faces and they are all triangles. I have 4 vertices.

CYLINDER

I have 2 flat faces and 1 curved surface. I have 2 edges.

CUBE

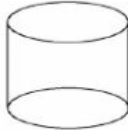

I have 6 faces. 2 of my faces are squares and 4 of my faces are rectangles.

SPHERE

### Match each shape to its name

SPHERE

CYLINDER

CONE

CUBE

SQUARE PYRAMID

**Choose TRUE or FALSE for the next sentences**

- A cylinder has 2 vertices.
- The faces of a cuboid are all the same.
- The cone has one circle base.
- The sphere has 1 curved surface.
- The faces of a triangular pyramid are all the same.

**Can these shapes roll? Choose YES or NO**

Cube

Cylinder

Sphere

Square pyramid

Cone
