Livestreaming to sell products proved its effectiveness in a campaign to sell lychees in Bắc Giang, a northern province of Vietnam. During the 4th wave of COVID-19 in Vietnam, this province took a flexible approach to **boost** its lychee sales while at the same time being the epicenter of the pandemic. In early June 2021, Sendo, an e-commerce platform, live-streamed two Bắc Giang farmers who led more than 30,000 viewers on a virtual tour of their lychee orchards and succeeded in selling 8 tons of fresh lychees in a short period. Before that, the Vosco e-commerce platform also assisted farmers in selling agricultural products by utilizing live streaming. Vosco sent their teams to guide farmers on how to take photos of the products, write marketing content, live stream, and sell them on the Vosco platform.
