Grade-4

Read and Write 6-Digit Numbers-Concept C.W

NUMBERS

Write the following numbers in digits:

a) nine thousand one hundred and thirty two

b) eight thousand seven hundred and fifty

c) two thousand two hundred and twenty two

d) one thousand and thirty one

e) five thousand four hundred and twenty one

Find the missing numbers:

1) $60,000 + 900,000 + \rule{2cm}{0.4pt} + 1,000 + 4 + 30 = 961,134$

2) $0 + 40 + 200 + 4,000 + \rule{2cm}{0.4pt} + 200,000 = 204,240$

3) $7 + 60 + 500 + 9,000 + 10,000 + \rule{2cm}{0.4pt} = 319,567$

4) $1 + 200 + 4,000 + \rule{2cm}{0.4pt} + 20 + 900,000 = 954,221$

5) $300,000 + 70,000 + 800 + 2,000 + \rule{2cm}{0.4pt} + 7 = 372,857$

6) $600,000 + 70,000 + \rule{2cm}{0.4pt} + 5,000 + 70 + 5 = 675,775$

7) $5 + \rule{2cm}{0.4pt} + 5,000 + 10,000 + 50 + 500,000 = 515,155$
