When we think about resources, we usually think about oil, gas, gold and other such things. However, many people forget that time is also an important resource and we should learn to 1. _____ it well. Many people complain that they don't have 2. _____ time to do everything. They say that they 3. _____ to spend a lot of time at school or offices, so they have little time 4. _____ for recreation and relaxation. This affects their physical and mental health. We cannot stop the 5. _____ of time and if we don't use it well, it will go wasted like all other resources.
