Extra listening

Listening strategy

If you can't find the answer to a question the first time you listen, leave it, and go on to the next question. If you don't do this, you will miss the answers to the other questions, too! Remember that you will probably have more than one chance to listen to the text. Go back to the question you missed the next time you listen and try again!

 149 Listen to a presentation about the scientist Stephen Hawking. Write *T* (true) or *F* (false) next to the statements.

- Stephen Hawking studied the universe. T
- Stephen's family meals were often very noisy.
