13 Costs

Why Are Managers Obsessed With Cost?

Setting sales price

Managers set **sales price** by using **markups** or the **cost-plus method**. How? It's simple. Start with the cost of producing something. Then add a certain percentage. This percentage includes the desired profit and fixed expense recovery. But what if a company sells below cost?

Dumping

Sometimes, businesses try to gain an advantage by selling **below cost**. This is called dumping. Many countries have passed laws against dumping. It is a **predatory** pricing practice because companies use it to drive competitors **out of business**. Businesses can only lower their prices down to their costs. Otherwise, someone can **sue** them.
