Unit 4: I´m Shopping!

1. Reading Comprehension: Back to School Shopping

Today, I am going shopping with my mom to get some clothes for the start of the school year. There are a few items that I need and I might be able to convince my mom to buy me new shirts, a scarf, and a hat! This is what I need: socks, sneakers, a winter coat, and jeans. Most of these items are old and torn, but I lost my winter coat last year at school. We are going to El Corte Ingles in the main town center, right next to the mall, luckily it's not on the busy street! I saw on their website that they have black jeans for $30 and blue jeans for only $20. I decided to get the least expensive pair of jeans. We also saw an offer for a pack of socks that are 5 for $3.99. Now my shoes and winter coat will be a bit more money because I need a special pair of sneakers for running, but I can wear them all the time, and they are $80 and my winter coat will be $150. My mom said that it's important that my winter coat lasts for 4 seasons, so this time I have to keep an eye on my jacket at the store, at restaurants, everywhere! Let's go, I can't wait to see what else the store has for me!
