Poland Joins the EU

The European Union is a political and economic organisation of 28 member countries. There are 500 million inhabitants in the EU,

1) is 7.3% of the world's total population. By joining the EU, the governments of these member states have all agreed to make decisions as a group, rather than act independently. In this way, they aim 2) their economies. EU member states share a number of common laws and promote the free movement of goods, services, money and people between countries. This means that 3) citizen of an EU member state has the right to live and work in another EU member state. Poland was one of the first Eastern European countries to apply for EU membership. Its first application was rejected but on 1st May, 2004, the EU expanded to include 10 new countries and Poland was at last successful. Since then, Poland has adopted EU law and economic policy and although its currency is 4) the zloty, the government has agreed to switch to the euro by 2016. Following these significant changes, lots of Polish people have taken advantage of their newfound political freedom and made a fresh 5) both in and outside of their native homeland.
