

Natural Sciences. Unit 1. Nutrition and Reproduction.

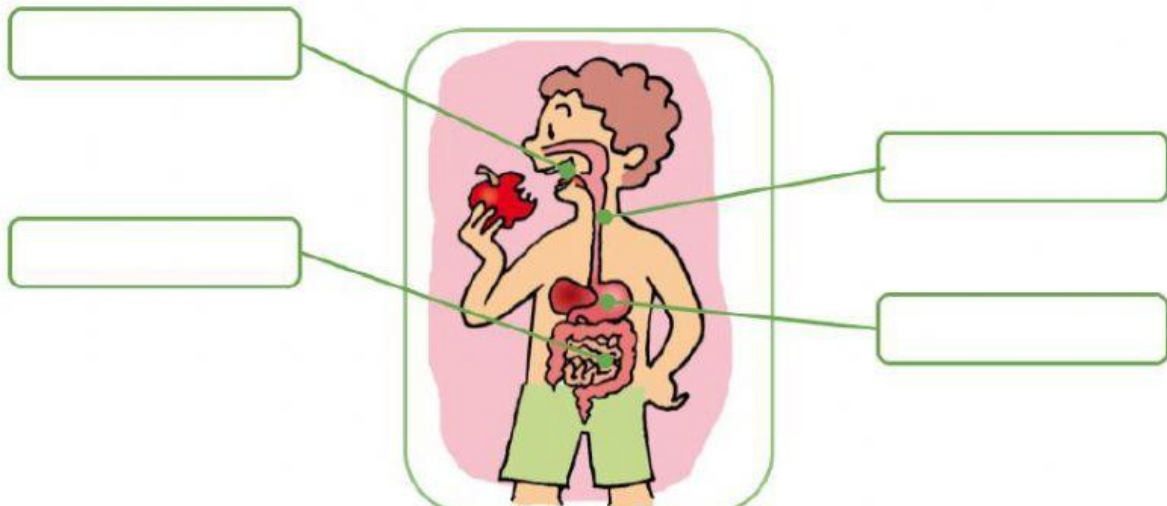

1 Match the system with its function.

- | | |
|---|---|
| digestive system ☐ | ☐ get oxygen from the air. |
| respiratory system ☐ | ☐ have babies. |
| circulatory system ☐ | ☐ get nutrients from food. |
| excretory system ☐ | ☐ eliminate waste products. |
| reproductive system ☐ | ☐ move blood from the heart to all parts of our bodies. |

2 Label the parts of each system.

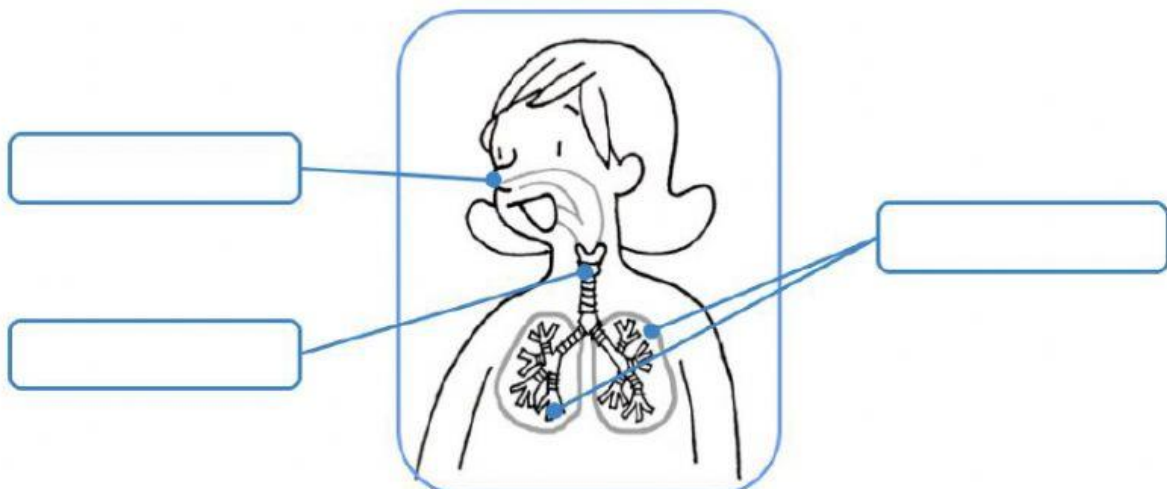

DIGESTIVE SYSTEM

Our **digestive** system allows us to get nutrients from food.

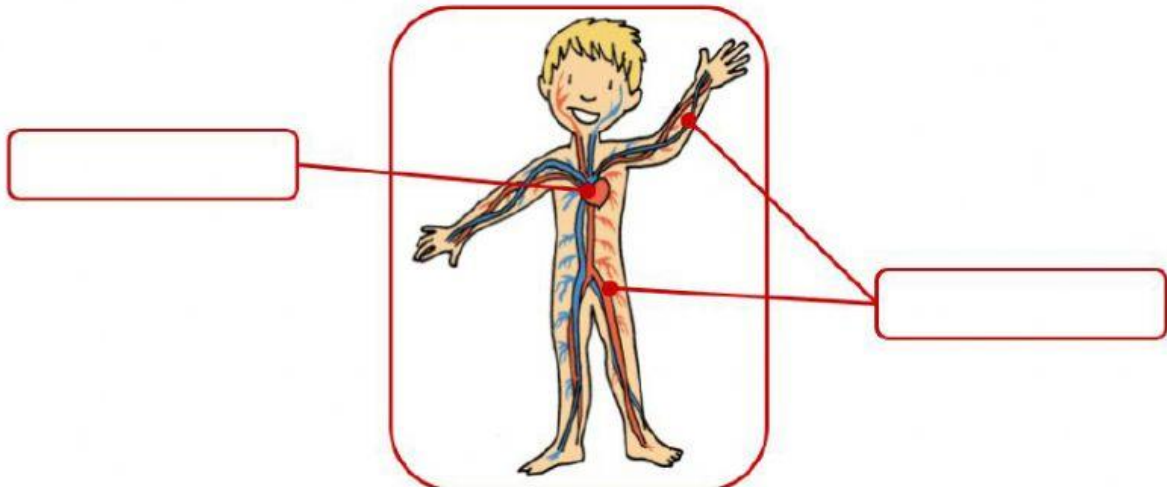

RESPIRATORY SYSTEM

Our **respiratory** system allows us to get oxygen from the air.

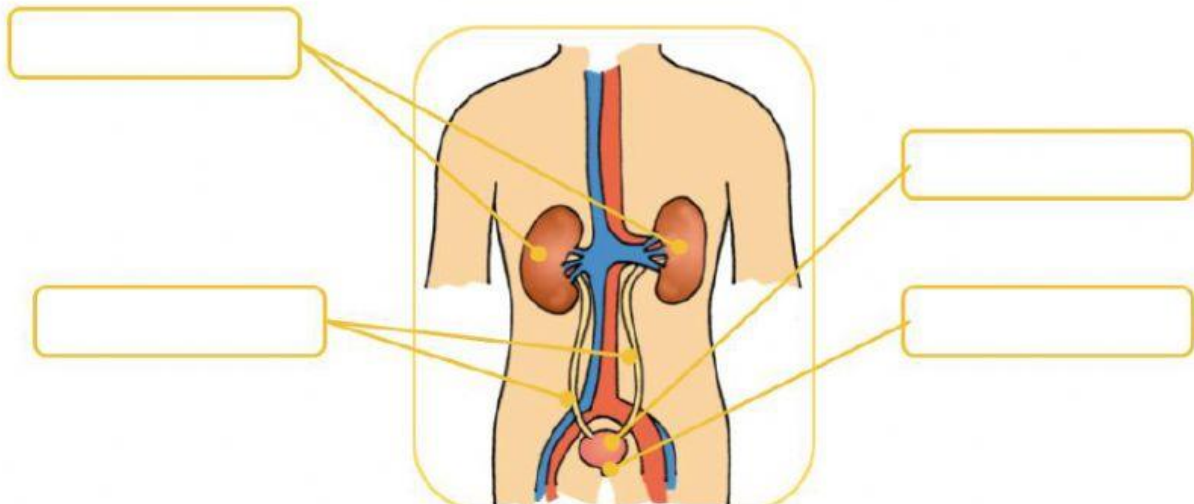

CIRCULATORY SYSTEM

Our **circulatory** system sends blood from the heart to all parts of our bodies.

EXCRETORY SYSTEM

Our **excretory** system helps us get rid of waste products.

REPRODUCTIVE SYSTEM

Our **reproductive** system allows us to have babies.
