Everybody loves somebody sometime

Everybody falls in ..... somehow

Something in your ..... just told me

My ..... is now

Everybody .....somebody someplace

There's no telling ..... love may appear

Something in my .....keeps saying

My .....is here

If I had it in my power

I'd arrange for every ..... to have your charms

Then every minute, every .....

Every boy would find what I ..... in your arms

Everybody loves somebody sometime

And although my ..... was overdue

Your ..... made it well worth waiting

For someone ..... you
