

Animals in Australia

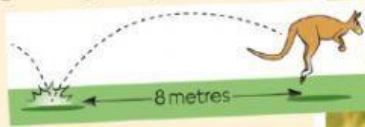

Australia

In Australia there are lots of amazing animals.

These are red kangaroos. They live in a group in grasslands and the desert. They are tall and they've got long tails. They eat grass, but they don't eat fruit or meat.

Kangaroos can jump eight metres in one jump!

Koalas live and sleep in a tree. They sleep for 20 hours every day. At night, they eat leaves from the tree.

The cassowary is a big bird, but it can't fly. It lives in the rainforest and it likes fruit and seeds. It doesn't drink lots of water.

These animals don't live in the wild in other countries. They live only in Australia!
