

AIR TRAVEL

LISTENING

You are going to listen to an airline pilot talking on a radio programme. Before you listen, discuss questions 1-6 with a partner and imagine what the answers will be.

1. What weather conditions are the most dangerous when you are flying a plane?
2. Is turbulence really dangerous?
3. Which is more dangerous, take-off or landing?
4. Why do passengers have to switch off electronic devices and put their tables up during take-off and landing?
5. Is it really worth listening to safety demonstrations?
6. Do you ever get scared.

Listen to the programme. How many of the pilot's answers did you predict correctly?

What did the pilot say that might make you feel more relaxed next time you fly?
