

PERSONALITY: FROM NATURE OR NURTURE

Personality = a person's usual manner or style of (1)

Nurture school of thoughts:

- Personality ← the environment (combination of (5) from families, culture, friends, and (6))
- Babies are born (7) a personality

Nature school of thoughts:

- Personality = (8) we receive or inherit from our parents biologically, through their (9)
- Babies are born (10) a personality.

Nature-nurture (11)

- It is difficult to conduct research on real people with real lives.
- There's no way to put people in a (12) and watch them develop
→ no way to (13) the nature-nurture controversy

Recent conclusion: both the environment AND the genes work together and are both important.
