

G6U11 P1

LISTENING

- I. Listen to the recording and write **NO MORE THAN THREE WORDS OR NUMBERS** for each numbered blank.

Green bags, green clothes, green cars, green energy, green everything! What does it mean to be green? Being "green" is a (1) _____ to say "helping the environment".

It is good to help our environment. Think about how much trash we make every day... plastic bottles, paper bags and boxes from (2) _____, and Styrofoam coffee cups. Also, letters and papers in the mail, plastic wrap to cover the food, and (3) _____ from the grocery store. Wow, that's a lot of trash!

Also, think about how much water we use... taking a shower, brushing our teeth, and washing the dishes, and washing the car. Also, water for the (4) _____, and water used by industries and businesses.

There are many ways we can be green! We can make less trash and use (5) _____.

For example, when we go to the store we can bring our own bags instead of taking a plastic bag.

- II. Listen to telephone conversation between Mia and a person from the local council and answer each of the question:

1. What is the red bin for?

2. How often will the bin men collect the rubbish?

3. What day does Mia need to put the bins out?

4. What time does Mia need to put the bins out?

5. How far is the local recycling centre?

III. Listen to the following conversation and then write T (True) or F (False) for each of the following statements.

1. Burning or burying rubbish is good for the environment. _____
2. We can recycle all of our rubbish _____
3. There are now recycling bins in many places _____
4. We can make park benches from recycled soda bottles. _____
5. We can make new paper from old paper. _____
