## DIALOGUE 3

Udin : Neng, what do you feel about having online classes during this pandemic?  
Oneng: To be honest I hate having online classes beacuse there are many problems I face during the classes such as bad internet connection, need more money to buy internet data but I don't have much money, difficult to understand the lesson, and no teachers near me to ask about my problems.  
Udin : Wow. Do you think so? But I feel I enjoy it because I love staying at home and I can do many things I like at home after doing the assignments.
