Test review 1 **Name:**.....

1st year

1. Reading comprehension. Read then write true or false. **Justify**

Marie Curie was a brillant scientist. She was Polish. She was born in Warsaw in 1867. Both her parents were teachers but unfortunately her mother died when Marie was only nine years old. Marie was very sad then but she began to play a game with her older sister which made her feel happier. Marie enjoyed studying at school and when she was a young lady she went to the Sorbonne University, in France. While she was studying in Paris, she met a young man called Pierre Curie. He was also a scientist. They fell in love and decided to get married. They had two daughters.

a. Marie's father was a teacher and her mother was a scientist. .....
b. Marie hated studying. .....
c. Marie lived in Poland. .....
d. Marie had a younger sister. .....
