1. If you start your own business, what do you have to get used to?
2. Think of a current trend in your field of work. What is the trend? What will happen if this trend continues?
3. What kind of government regulations does your company have to comply with? What would happen if the company didn't comply with these regulations? What would happen if these regulations didn't exist?
4. If you gave a graduation speech to a group of college graduates, what would you say to them? What advice would you have for people about to enter the job market in your field.
5. Talk about a law that you'd like to implement. Why would be better if we had this law? What would be different?
6. Talk about a law that you disagree with. Why would things be better without this law? What would be different if this law didn't exist?
