 - D. Artistic ability can be learned.

Fill in the blank with NO MORE THAN THREE WORDS from the reading text

Concerning the question whether a person who is not born with can actually become an artist, we should firstly look at the drawings made by some famous artists like Don Lipski when they were children. Obviously, their work are not very much from what all young children draw. It is clearly that natural talent and more artistic ability is by great artists like Michelangelo or Picasso than by However, a book by author Betty Edwards argues that the to improve artistic ability can be found in all of us, and that artistic ability can be learned with training, practice, hard work, and most importantly, which is a source of motivation to improve the ability day after day. In summary, besides artistic talent, which is obvious an, the needs hard work.
