## READING

Read the article about unusual airport attractions. Five sentences have been removed. Which sentence (A–F) fits each gap (1–5)? There is one extra sentence which you do not need to use.

### Unusual airport attractions

There's one destination most air travellers don't look forward to on their trip – the airport. The idea of spending a large part of your journey time waiting in endless queues, or sitting on uncomfortable seating while trying to hear incomprehensible flight announcements, is probably less than appealing. But all that's beginning to change. (----1----) Check out the unusual airport attractions below.

#### Animal therapy

The concept that being around animals can reduce stress in people isn't new. Many airports have pets available for passengers to interact with in order to help them relax before a flight. (----2----) It has a vast 114,000-litre aquarium which is home to around fifty-thousand marine plants and animals. Species to look out for include giant green anemones, wolf eels, armoured sea cucumbers, otters, and over thirty different species of jellyfish. There's even a 4D cinema experience which uses special effects such as scent, sound, dramatic lighting, and simulated weather to transport its audience into natural environments.

#### Access all areas

Whether you're a confident flier or a nervous wreck before take-off, you'll no doubt have wondered what it feels like to actually fly a plane. Well, at Zurich Airport in Switzerland you have the opportunity to find out for yourself by taking part in a flight training simulation. You can choose a solo or group training session and then choose from four different types of aircraft to practise in. Other attractions for flight enthusiasts include access to the airport's flight observation decks, where you can view aircraft taking off and landing. (----3----) You can even control the airport's live webcam or take a sightseeing tour by helicopter.

#### Cultural experience

Of course, travellers are usually keen to immerse themselves in the culture of the country they are visiting. (----4----) It has several cultural information centres which hold free music and dance performances, offer free arts and crafts sessions, and run workshops where you can experience traditional Korean art forms. There is also a range of observatories, museums, and art galleries to help pass the time before your flight is due.

Airport music is historically pretty bad but Philadelphia International Airport has a unique way to keep passengers entertained. The four-person Philly Phever band is known as a 'strolling band' because they walk around inside the airport playing lively music to entertain waiting travellers. Not your usual fall-asleep-to airport music!

#### Surf's up!

Perhaps the most bizarre airport attraction to date is Munich International Airport's indoor wave pool. The pool, which is set up each year and is over thirty feet wide, gives visitors the opportunity to try out surfing, take a lesson with a surf professional, or watch world-class surfers ride waves up to 1.5 metres high. You wouldn't expect a city with no coastline to host a major surfing event. (----5----) Don't forget to pack your wetsuit!

So, next time you fly, don't forget to look into airport entertainment options. Perhaps in future, our holidays will start at the departure airport, not after we touch down at our final destination.

- A You can also watch the pilots in the cockpit and see the aircraft close up.
- B Passengers have described them as full of enthusiasm, energy, and Philadelphia spirit.
- C At South Korea's Incheon International Airport, you can do this without even stepping foot outside.
- D However, Canada's Vancouver international airport offers a much larger-scale animal experience.
- E In fact, we may even see a time when people actually hope their flight gets delayed!
- F However, the yearly Surf & Style Championship is famous worldwide.
