The Force Awakens (2015)

- 1 *The Force Awakens* is the seventh film in the Star Wars saga, created by George Lucas. The film was ¹directed by J.J. Abrams. It ² stars John Boyega as Finn, Daisy Ridley as Rey, and Harrison Ford as Han Solo. It was ³ nominated for five Oscars in 2016, but it didn't win any.
- 2 The film is ⁴ set a long time ago in a galaxy far, far away. It was ⁵ filmed in the UK, Ireland, and Abu Dhabi.
- 3 The story begins 30 years after the events of *Star Wars: Episode VI Return of the Jedi*. Finn, a stormtrooper, leaves the evil organization called the First Order. He follows a little robot, BB-8, who has information about how to find Luke Skywalker, a Jedi who can use a special energy called the Force. Finn and BB-8 are helped by a young woman called Rey, and together they escape and find Han Solo, a space pilot, and his alien friend, Chewbacca. They help Finn and Rey in their search for Skywalker and their mission to destroy the First Order's new superweapon.
- 4 I strongly ⁶ recommend *The Force Awakens*. It has ⁷ action, drama, a great ⁸ sound track, and a good plot, but above all, amazing ⁹special effects. I think I will always prefer the classic Star Wars films, because I watched them when I was young, but I loved this film, too.
