

An apple a day

1 Listen and read.

- Nam:** Hey Scott, have you ever heard the saying, 'An apple a day keeps the doctor away'?
- Scott:** Of course, why?
- Nam:** Did you know that it's really true?
- Scott:** What do you mean? If I eat one apple a day I will never get sick?
- Nam:** Not exactly, but it can help you lose weight, build healthy bones, and also prevent diseases like cancer.
- Scott:** Wow! That's incredible. I drink apple juice every day.
- Nam:** That's good, it will help keep you from getting Alzheimer's disease when you get old.
- Scott:** Is that the disease that affects your memory?
- Nam:** Yes. Since drinking apple juice helps boost your brain's memory function, it helps you remember things for a long, long time.
- Scott:** But Nam!
- Nam:** Yeah?
- Scott:** There are a few things I really want to forget.
- Nam:** Like losing the football match yesterday?
- Scott:** Exactly!

2 Work in pairs. Read the conversation again and answer the following questions.

1. What does 'An apple a day keeps the doctor away' mean?
2. Name three health benefits of eating apples or drinking apple juice.
3. Which part of the body does Alzheimer's disease affect?
