Read the article about The Dubai Mall. For each question, mark A, B, or C on your answer sheet.

The Dubai Mall **Shopping, Entertainment. Lifestyle**

If you want to buy a new outfit, you go to a mall. If you want to see sharks in an aquarium or listen to a world-class concert, where do you go? A mall? Well, yes. These days, malls are not just for shopping. They're an important part of our lifestyle.

Shopping

The Dubai Mall has over a thousand stores, with everything from designer clothes to electronics. Every week, over 750,000 people - including top celebrities - shop there. There's also a souk - a traditional market with souvenirs, jewelry, and a local craft stalls. You need to spend several days there if you want to visit every store. But that's fine because there's a 250-room luxury hotel in the mall, too.

Entertainment

There's an indoor entertainment park full of virtual reality experiences: safari rides, a snowboard jump, and other exciting games. There's an aquarium with sharks, and don't miss the amazing fountains outside - they're the height of a five-story building.

Have a great time

There are lots of other things to enjoy, too. Eat at one of the 160 restaurants, go and see a movie, a famous band, or piano concert, take a diving course, or just relax.
