

Word Problems

Read each question. Identify the key numbers and words.
Write the number sentences and solve.

- There are 8 bears at the lake. 4 more bears came.
How many bears are there in all?

$$\square + \square = \square$$

- Jack has 7 fish. He buys 8 more fish.
How many fish are there altogether?

$$\square + \square = \square$$

- Max has 9 planes. Jax has 6 planes.
How many planes do they have in total?

$$\square + \square = \square$$

Arrange the numbers in order from least to greatest.

10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30
