

Exercise 4

Read the information. Then listen to the conversation again. Choose the correct options to complete the explanations of why the answers are correct or incorrect.

Identifying information which leads you to the correct or incorrect answer will help you understand the difference between essential information and distracting information. It's important to consider why an answer might be incorrect. It could be because the speaker doesn't talk about it or that they talk about it in a different context to the question. Listen carefully to the whole conversation to decide what the essential and distracting information is.

Facilities: has a **(1)** that guests can use for free.

The answer is swimming pool because using it is included in the price. The car park and gym are/aren't free.

Location: lots of shops nearby, but unfortunately, it's also near a **(2)**

The answer is restaurant, because the woman mentions some disadvantages of staying near it (*it could be noisy at night*). She doesn't say that being near a restaurant/road/supermarket would be a disadvantage. There isn't a restaurant/road/supermarket near the apartment.

Cost: (3) €..... per person for one night

The answer is €35 because this is the price per person at the cheapest apartment. The price based on two people staying is €35/ €42/ €70 and the price per person at another apartment is €35/ €42/ €70 per person.
