Part 4

Read the text below and answer questions 25 - 34.

My best friend

Friends are important to us. We do not need too many friends but a few great friends makes a huge difference in our lives. I have such a good friend in my life. Her name is Lily and we go to the same school. Although we are the same age, we do not learn in the same class. Her class is one floor below mine because we have different interests in studies. I love science and she loves history.

Lily has a good sense of humour. She always makes me smile when I am down. She sometimes makes jokes that I can laugh so hard my stomach hurts. She is the most hardworking person I know and she is never selfish in sharing what she knows. Her knowledge in world history is amazing. She dreams to become a history journalist one day.

Lily and I live in the same neighbourhood. Every morning, we take the school bus together to go to school. Sometimes, my mother would make two packed meals to give one to Lily. We would eat together during the school break. I can eat a lot. So when Lily cannot finish her meal I would be the first to take her food. She always jokes that I might become a teddy bear if I keep eating so much.

Another reason Lily and I become so close is because we share the same love for netball. We both play for the school netball team and we train three times a week after school. Lily is recently chosen as the team captain. Coach likes that she is a fair person. One time I was late for training, she made me run five rounds around the court as punishment even though we are close friends. Besides, she trains hard and always communicate with us during games.

I am grateful because I have a good friend. Lily has been like a sister to me. I cannot imagine my life without her.

Part 5**Questions 35 - 40**

You are going to read a newspaper article about sports.

Six sentences have been removed from the article. Choose from the sentences (A – H) to fit each gap (35 – 40). There are two extra sentences which you do not need to use. For each question, mark the correct answer (A – H) on your answer sheet.

My school had a new volleyball coach and I attended their training recently. On my first day of training, our coach talked about the sport and its rules. We were divided into two teams. 35 Between us, there was a net about a few metres high. Each team tried to score points by trying to get the ball to touch the floor in the opponents' court. We played hard but it was obvious we needed more training.

I enjoyed the first day of training and it was great working out with other team members. Coach Jackson even spoke to me personally. 36 He also said that my height would definitely be an advantage in this sport. He wanted me to give it a shot in the school volleyball team. 37

I have talked to my parents about this and they encourage me to go for it. My mother thinks this could be a great opportunity to gain new experience and make new friends. 38 I want to see how far I can go with this. Plus, I have always been a fan of sports. 39 I might not have enough time for my homework and revision once I start training with the group.

Instead of giving up, I spent some time doing research on how to manage my time better. I found out my answers. 40 And if I follow my timetable and do things the right way, I will be fine. I think this will be a good experience for me.
