

EJERCICIOS CON VECTORES

Determina las componentes de los vectores graficados en el plano cartesiano:

$$\vec{AB} = (\text{red box}, \text{orange box})$$

$$\vec{AC} = (\text{orange box}, \text{orange box})$$

$$\vec{AD} = (\text{orange box}, \text{orange box})$$

$$\vec{AE} = (\text{orange box}, \text{orange box})$$

$$\vec{AF} = (\text{orange box}, \text{orange box})$$
