"How to Insert Sim Card Cellphone"

Cellphone is a modern communication device which connects one to the others by voice, written message and data. However, this device cannot work until the SIM card is inserted. When inserting the SIM Card to cellphone, make sure that the cellphone has been switched off and follow the directions bellow :

1. First of all, press the locking catch and slide the cover then lift it off the phone.
2. After that, push two catches in the opposite directions and remove the battery.
3. Next, slide the SIM card carefully into the slot and make sure that the golden connect arsons are facing to the connector of the phone.
4. Then, put the battery and align it until snaps into its place.
5. Finally, insert the two catches of the back cover corresponding slot in the phone and slide the cover forward button of the phone until locks into place. Don't forget to switch on the cellphone. Wait until it is ready to use.

How to Cook Rice In a Rice Cooker

1. First, rinse a cup of rice in cold water. Rub the rice softly under the running water. Do not rub the rice too long, because it will lose the nutrients. Wash the rice once again. Then drain the water from the rice.
2. Next, add a cup of water. If you cook rice using an electronic rice cooker, pay attention to the water ratio. The rice and the water ratio is usually 1 part rice to 1 part water.
3. Then, place the cooking pot in the rice cooker properly. Cover the pot. Select the cooking button right after the light on the rice cook cook turns.
4. Finally, when the rice has been cooked and is resilient, flip through the rice very gently using a rice spatula.

1. Read those texts (Text1 and 2) one more time then answer these questions

a. What are those text about?

b. Who will be probably need to read the text?

c. What are the purpose of the texts

d. What is the benefit of reading the texts?

2. Read the text then analize its structure using this table
