

Exercise 5

Read the information. Then read the sentences. Do they correctly reflect the information shown in the table? Choose Yes if they do or No if they include irrelevant, inaccurate or inappropriate details.

Inclusion of irrelevant, inaccurate or inappropriate details that are not shown in the data will limit a response to Band 6 for Task Achievement in IELTS Writing Task 1:

- irrelevant: this task requires you to objectively analyse and present the key data so do not add information which is not mentioned. Neither should you speculate as to reasons why the data is what it is nor give personal opinions on what the data shows.
- inaccurate: make sure when you do include data from the table that what you write precisely reflects the graphical information. It's a good idea to double check that the data you present is correct when you finish.
- inappropriate: this task should adopt the correct tone and style for a piece of academic writing so avoid informal or colloquial language.
