## GLOBAL WARMING

### SPEAKING

Match the activities with the reasons why they can help reduce global warming. There are **TWO** activities that **DO NOT** help reduce global warming (Write **NONE** next to them).

1. Reusing and recycling glass, plastic, paper and other products	
2. Reducing use of paper products	
3. Travelling by air around the world to study global warming	
4. Cutting down on energy use: use LED light bulbs and unplug unused electronic devices	
5. Using green methods of transport: ride a bicycle or just walk	
6. Planting trees or plants wherever they can grow	
7. Living in forests surrounded by a diverse population of species	

	Reasons
a.	This helps to reduce the amount of emissions from the burning of petrol in vehicles.
b.	This helps to save trees and forests since these products are made from wood.
c.	These are more efficient, longer lasting and use much less electricity. Even when turned off, electronic devices still use energy.
d.	They absorb carbon dioxide and give off oxygen. A single tree can absorb about one ton of carbon dioxide in its lifetime.
e.	This helps to reduce waste and pollution, and conserve natural resources.
