Learning Target: I can explain the similarities and differences between benign and malignant tumors.

Benign vs. Malignant Tumors Top Hat Activity

Instructions: Research benign and malignant tumors. Use your video notes, activities, and research to Drag & Drop the similarities and differences between benign and malignant tumors to their correct space in the top hat below.

Differences	
Benign Tumor	**Malignant Tumor**
1.	9.
2.	10.
3.	11.
4.	12.
5.	13.
6.	14.
7.	
8.	

Similarities
15.
16.

Often small	Large	Slow growing	Uncontrolled cell growth
Normally don't return after being removed	Stay where they are	Non-invasive	Metastasize
Stay localized	Fast growing	Can grow to be very large	Invasive
Can't invade or metastasize	Usually have a smooth regular shape	Can return after being removed	More deadly
