stages

The process is a method for breaking down large project into stages. The design process is used by designers, engineers, architects, and scientists whenever they face a problem such as a design task. The in the design process are:

- ⦿ Design problem or brief
- ⦿ the problem
- ⦿ Research and planning
- ⦿ Design possible and final solutions
- ⦿ Produce the final product
- ⦿ and evaluate the product

There are many processes used for design and project development. Some other methods are

- ⦿ Design thinking process
- ⦿ Systems lifecycle
- ⦿ Agile development
