Star Trek fans will know that the Enterprise crew members

wore wrist communicators that allowed them to

1)  the spaceship quickly and easily.

Back then, that was just science fiction but small wrist
smartphones, or smartwatches, are soon going to be reality.

Smartwatches of the future are going to be able to tell you far
more than just the time. You will be able to read your emails,
text 2)  , check your Facebook page and
more just by looking at your wrist. This doesn't mean you
won't need your smartphone though.

The smartwatch will 3)  to your smartphone
via Bluetooth so you can leave your smartphone in your bag
and still see who is calling. Such a cool gadget is going to be a
must-have for all.
