

4th level Social Science

UNIT 1: The Atmosphere

1. Place the layers of the atmosphere in the correct order.

stratosphere

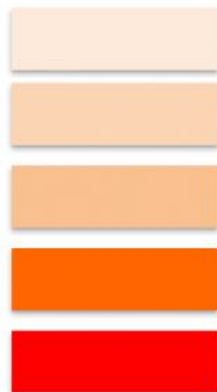

troposphere

exosphere

thermosphere

mesosphere

OUTER SPACE

EARTH'S SURFACE

2. Complete the sentences with the correct word choice (write the word).

_____ (weather/climate) is the state of the atmosphere at a certain time and place.

_____ (weather/climate) is the average temperature and precipitation in a specific area.

3. Organize the factors that determine either climate or weather. Think about if the factor influences climate or weather. For example, does rain influence CLIMATE or WEATHER? Drag and drop!

rain	latitude	altitude	snow
------	----------	----------	------

CLIMATE

WEATHER

GOOD JOB!!!
