

**Scrivi il perimetro di ogni forma utilizzando il quadretto lineare    come unità di misura,  
scrivi l'area utilizzando il quadretto “ pieno ”  come unità di misura**

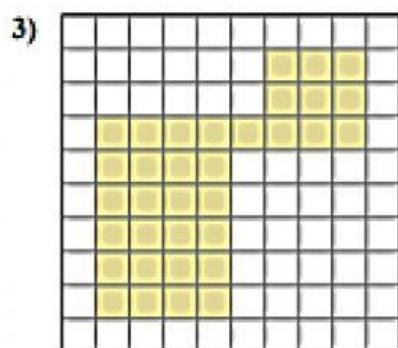

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

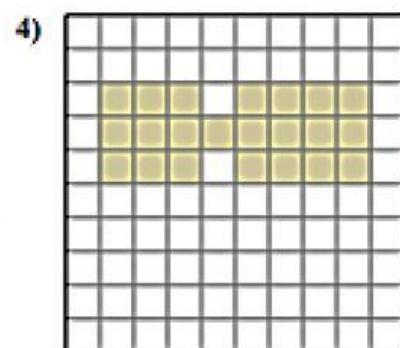

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

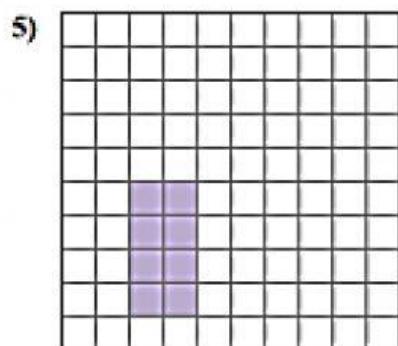

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

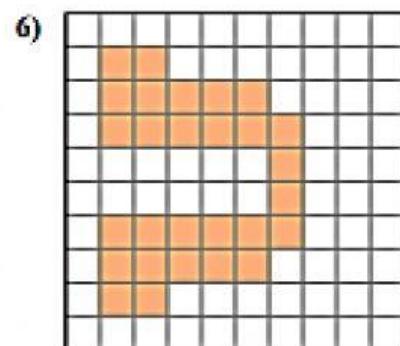

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

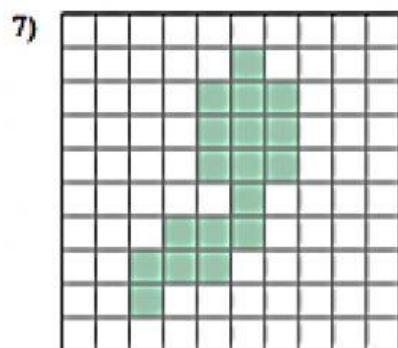

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

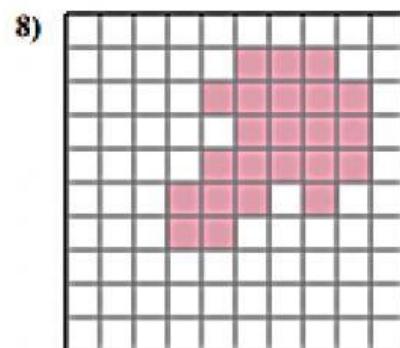

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$

$$p = \underline{\hspace{2cm}} \text{ —}$$

$$A = \underline{\hspace{2cm}} \square$$
