

Vacuum the Floors

Life Skills

- **Ask someone to show you where the vacuum cleaner is and how to use it. Remember to ask for help if you need it!**
- **Turn on the vacuum, and push it back and forth in straight lines.**
- **If you see something that is too big for the vacuum to sweep up, pick it up before you run over it.**
- **When you are finished, look around to make sure you haven't missed anything - don't forget the edges and corners!**

NOW, LOOK AROUND AND BE PROUD OF YOUR WORK.
YOU'VE DONE A GREAT JOB!!!
