

Wash Tables and Counters

Life Skills

- Fill a container with warm, soapy water. Remember, you only need a little bit of soap - not too much.
- If you have cleaning spray, you can use that too. Remember to ask for help!
- Wipe down the counters and tables carefully - don't miss any spots!
- Pay extra attention to tough spots - sometimes you have to scrub them a little extra.

LOOK AROUND AT YOUR NICE CLEAN COUNTERS AND TABLES - A JOB WELL DONE!!!
