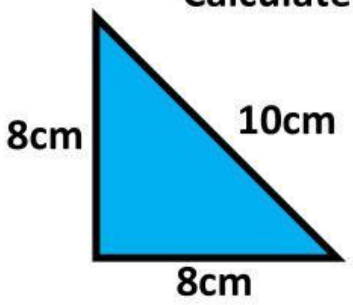
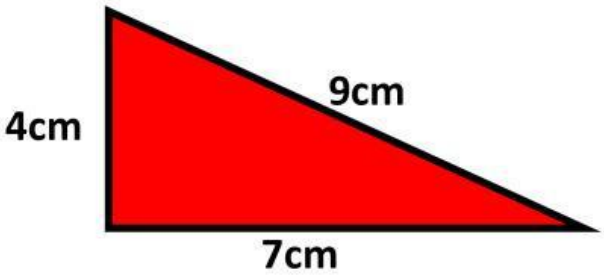
Area and Perimeter of Triangles

Calculate the area and perimeter of these triangles



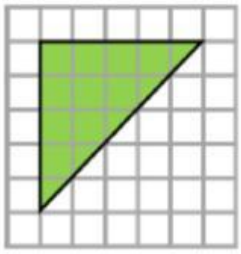
Perimeter = cm

Area = cm^2



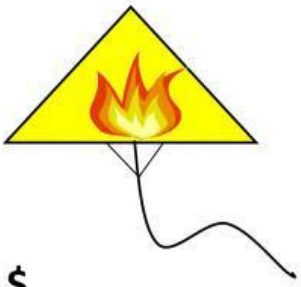
Perimeter = cm

Area = cm^2



Mo says the area of this triangle is 15cm²
Is Mo correct? If not, explain his mistake.

Tom is making a kite for a school project. It is in the shape of a triangle. The base is 14 inches and the height is 12 inches. It costs $2 per square inch for the material. How much will he pay?

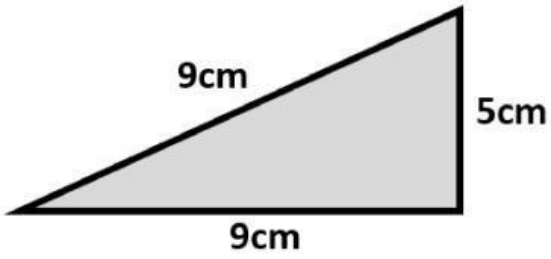


Price = $_____

Area = 54 cm²

What could the length and the height of the triangle be?

How many different integer possibilities can you find?



Perimeter = cm

Area = cm^2
