Scrivi il precedente e il successivo di ciascun numero

The diagram consists of three rows. The top row contains a central box labeled "10" with three green boxes to its left and right, each connected to the central box by a curved arrow pointing away from it. The middle row contains a central box labeled "9" with three green boxes to its left and right, each connected to the central box by a curved arrow pointing away from it. The bottom row contains a central box labeled "18" with three green boxes to its left and right, each connected to the central box by a curved arrow pointing away from it.

Scrivi i numeri che mancano

A horizontal row of ten identical houses, each with a yellow body, a green base, and a red roof. The houses are arranged in a sequence where each subsequent house has a larger number on its door: 21, 22, 23, 24, 25, 26, 27, 28, 29, and 30.
