

SONG WORKSHEET 2

FILL IN THE BLANK SPACES IN THIS SONG!

(Verse 1)

Wanna hear a part to my _____?

I tried to hide in the glory

And sweep it under the table

So you would never know

_____ I feel like an accident

People look when they're passing it

Never check on the passenger

They just want the _____

(Refrain)

Yeah, I'm constantly

Tryna fight something that my eyes can't see

My mind and me

We don't get along sometimes and it

Gets hard to _____

But I wouldn't _____ my life

And all of the crashing and burning and _____, I know now

If _____ sees me like this, then they won't feel _____ now

My mind and me

(Verse 2)

It's hard to _____ and feel heard when you always feel like a burden

Don't wanna add to concern I know they already got

But if I pull back the curtain, then maybe someone who's hurting

Will be a little more certain they're not the only one _____

(Back to Refrain)
