Maria is working on a project about volcanoes for her science class. She wants to find some more information about volcanoes that have erupted around the world.

*A. Eruption* - If you want to know more about volcanoes, this is what you need. This book gives information about famous historical volcano eruptions around the world. It gives an overall view about how and why there's an eruption, as well as the damage it can cause.

*B. Disaster in the Past* is a famous science book about the 25 worst natural disasters in the world. It gives information about the time, place, and the damage that these disasters caused.

*C. The Giant Wave* is an interesting read. It offers lots of information about tsunamis that happened in different places. Readers can have a clear image about what had happened and the reason why these disasters took

*D. Be Safe in a Disaster* is a book about tsunamis. There's lots of information about how and why tsunamis happen, as well as what to expect and how to be safe when there's a tsunami.

place.

Look at the sentences below about a natural disaster in the past, called Earthquake in Haiti. Read the text to decide if each sentence is correct or incorrect. If it is correct, choose TRUE. If it is not correct, choose FALSE. (5 questions)

#### Earthquake in Haiti

The Haiti earthquake in 2010 is one of the worst disasters of the 21st century. On January 12th, 2010, an earthquake hit Port-au-Prince, capital of Haiti at around 4:53 p.m. More than 230,000 people were killed, and another 300,000 were hurt because they had no idea the earthquake was coming and could not escape in time. More than 600,000 people left Port-au-Prince to stay with families outside of the capital. The communication lines were lost, and roads were closed. The earthquake destroyed 60% of the city's government buildings, and 80% of the city's schools. It caused between \$ 7.8 billion to \$ 8.5 billion in damage. After the earthquake, the international aid organizations and people from other countries provided medicine, food, and water to Haitian people. Most Haitian people are farmers, and they could not grow anything because of the disaster. Haiti has had to face more difficulties since the earthquake in 2010.

Answers	True	False
19. Haiti was hit by an earthquake on the morning of October 12th, 2010.	<input type="radio"/>	<input type="radio"/>
